

# ARTIFICIAL INTELLIGENCE FOR EDUCATION: EXPLORING THE FRONTIERS OF ICT

Durante o curso, os participantes exploraram os benefícios da utilização da IA na sala de aula, bem como seus riscos potenciais. Exploraram também aplicações, estratégias e conhecimentos para tornar a IA uma aliada dos professores e da aprendizagem. Segue a partilha de algumas das aplicações trabalhadas e que convidam à sua exploração:

"Embora a IA tenha grande potencial para melhorar os resultados de aprendizagem dos alunos, é necessário que os professores sejam treinados na implementação eficaz da IA na sala de aula."
